AS THRILLING and refreshing as the surf on a summer day, Chevrolet is Australia's outdoor car. Sleek, stylish lines distinguish it as the leader of fashion. Interiors are as roomy and luxurious as the most expensive cars.

Mechanically, too, Chevrolet features everything you could possibly demand in a car — powerful high-compression valve-in-head engines — instant acceleration and perfected four-wheel hydraulic brakes — Synchromesh gears and "Knee Action" independent front wheel suspension (on Master de Luxe) — no-draught ventilation, safety glass windscreen, cushioned leather upholstery and a host of other features without counterpart among cars of comparable prices.
